## LIBRARY AFTER DARK OCTOBER 15TH @ 4PM: AUTHOR ANN ORNIE

Come to the library Oct. 15 to hear about local author Ann Ornie's writing process, her ideas, and her new book, *Summoning Spruce*. *Summoning Spruce* takes place in an imagined coastal Oregon where the depressed logging town of Spruce co-exists with "The Row," a supernatural community populated by spellcasting hippies. The Row's inhabitants are called "Magicals" while non-magicals are called "Ironhearts," so named for the excess iron in their blood that keeps them unable to perform magic.

## TRIVIA TIME!

Q: How many pieces of candy can each trick or treator expect to get from the average house?

A: The average American household gives out 2 pieces of candy per trick-or-treater!
